## SUPERINTENDENT'S MESSAGE Preparing Students for: Their Lives, The Community, The World

## FOREWORD

In Montgomery County Public Schools (MCPS), our first and foremost priority is to ensure our history of excellence in education continues each and every year. Our mission is to prepare all students so they develop the knowledge and skills to achieve success and become active citizens who contribute in positive ways to the community. The following are some of our division's major accomplishments during the 2011-2012 school year.

- Full accreditation of all Montgomery County Schools for the fourth consecutive year.
- Blacksburg High School was named One of Newsweek’s Top Public High Schools.
- Five Montgomery County schools earned recognition by the Virginia Department of Education in the Virginia Index of Performance (VIP) Incentive Program.
- Thirty-six MCPS teachers now hold the prestigious National Board Certification.
- Montgomery County was named a Top Community in Music Education.
- An MCPS Teacher for being selected as a finalist in the McGlothlin Teaching Excellence Award.
- Several MCPS students qualified to participate in DECA's International Career Development Conference.
- Numerous achievements by the MCPS athletic teams, which are highlighted via the many levels of district, regional and state recognitions.

MCPS is committed to excellence in education. It is a privilege to serve the students and families of Montgomery County. There are many ways for parents to be involved in MCPS. Please talk with your school principal about how you may contribute to our schools and to your child's success through mentoring, the PTA/PTO, attendance at special events, or other opportunities. We look forward to working with you and your child in the 2012-2013 school year.

Despite the budget challenges of these unprecedented financial times, MCPS remains committed to providing students with world class opportunities. Partnerships with Virginia Tech, Radford University, New River Community College, and other area cultural organizations provide unique learning opportunities for our schools and our students. Our classrooms are staffed by highly qualified teachers that deliver challenging curriculum. Teaching and learning are our core missions and as such they are the focus of our resources. The College Zone program allows MCPS enrolled students to earn college level credits while taking high school classes. There are also dual credit course offerings, Advanced Placement courses, virtual classrooms, business internships and the Campus Transition program that allows special education students to attend college while they are still students in MCPS.

As we approach the budget development for fiscal year 2012-2013, an extensive review of the existing budget has been accomplished. This review involved a complete analysis of programs and staffing in the current budget. The budget reflects this review and presents that the adjustments required to absorb the reduction in revenue and increase in expenditures will be difficult to achieve. The Superintendent and School Board are committed to efficiently using resources to ensure that a worldclass education is provided to serve all students and families of Montgomery County.

The budget for fiscal year 2012-2013 will continue to present a challenge due to the downturn in the economy and the slow growth projected in state and local revenues. However, emphasis will
continue to focus on the educational needs of the students of Montgomery County, and we will continue to provide quality instruction that emphasizes differentiation in an inclusive setting. Although reductions to the expenditure budget will still be required, efforts will be made to protect key instructional programs. Any restrictions on expenditures will have an impact on the classroom instruction either through the reduction of supplies and materials or by the lack of funding to do repairs and improvements to the school building. Reductions in positions will be approached as much as possible through attrition and could result in an increase in overall pupil teacher ratios. Student enrollment during the past year increased slightly, and it is projected to increase slightly in the 20122013 budget. Meeting the many challenges presented by the federal legislation under No Child Left Behind (NCLB) and the State Standards of Quality and Standards of Accreditation will be a challenge in this budget.

The State budget approved by the General Assembly for the 2012-2014 biennium for Montgomery County reflects a significant decrease. This decrease in State revenue further adds to the total decrease of $(\$ 6,104,935)$ in the School Board budget for the past three years. The increase in the Local Composite Index of $5.04 \%$ and changes by the General Assembly reduced State funds by $(\$ 1,301,207)$. Added to this loss of revenue are increases in expenditures for the proposed increase in the VRS employer contribution rate by $5.33 \%$ to $16.66 \%$ that increases expenditures by $\$ 2,694,842$, the proposed increase in Retiree Health Insurance Credit Rate by $0.51 \%$ increases expenditures by \$248,336, and the proposed increase in Group Life Insurance Rate by .91\% increases expenditures by $\$ 480,366$. The net impact of the budget changes restricts the School Operating Budget and does not allow for the additional needs and inflation to operate and maintain 20 schools, provide technology to prepare students for the future, and operate an extensive transportation system. The total combined increase in the expenditure budget with the reduction in state revenue and increase in County funds creates a modest increase of $\$ 688,377$ or $0.75 \%$ in the FY 2012-2013 School Operating Budget from the FY 2011-2012 budget. The FY 2012-2013 approved budget is only slightly higher than the School Operating Budget for fiscal year 2007-2008.

The School Board must continue to look to the Montgomery County Board of Supervisors for support as the State shifts financial responsibility for state required services to the local government. The School Board understands this is a significant challenge with the recently approved construction of two high schools and the renovation of a high school for a middle school. The Board of Supervisors responded with bold action to preserve schools and maintain County services with a 12 cent increase in the County real estate tax rate. The School Board was still required to reduce the budget by $(\$ 4,286,837)$ that was submitted to the Board of Supervisors on February 7, 2012. The actions of the Board of Supervisors helped to save teaching positions and avoid having to close or consolidate any schools at this time. This budget will have a major impact on our instructional programs and put on hold the salary improvement plan that was developed to be able to attract and retain a highly qualified staff.

## BUDGET PLANNING ASSUMPTIONS

* Resources will be directed to ensure all schools are accredited and meet the Adequate Yearly Progress (AYP) requirements of No Child Left Behind.
* Pupil teacher ratios will increase as budget reductions are absorbed.
- Grade $\mathrm{K}-3$ ratio of 20 to 1 not to exceed 22 to 1
- Grade $4-8$ ratio of 21 to 1 not to exceed 25 to 1
- Grade 9 - 12 ratio not to exceed 25 to 1
* Total projected student average daily membership (ADM) for March 31, 2013, is 9,502 and is a increase of 37 students from the budget of 9465 for March 31, 2012 enrollment. This reflects that the ADM for FY 2012-2013 will continue to be stable with moderate growth in student enrollment.
* State revenue will be reduced due to the increase of $5.04 \%$ in the Local Composite Index that will reduce the State funding portion of the Standards of Quality and increase the local match.
* Additional County funds will be limited as the County absorbs state budget cuts, funds current debt service, and the growth in local revenue slows due to the downturn in the economy.

The budget process is comprised of planning, preparation, adoption, implementation and evaluation. As we approach the budget development for fiscal year 2012-2013, an extensive review of the existing budget has been accomplished. This review involved a modified zero based process. Programs, functions, and staffing were reviewed to identify possible areas that exceeded needs, areas that required additional funds, and the impact of reducing funds available for all programs. In addition, using the school improvement process we looked at areas that should be updated and realigned with current programs and needs. The budget reflects this review and presents the adjustments required to carry forward the current approved programs and functions. As a result of the decrease in State revenue and the Governor's proposed State budget, the financial impact on the school improvement process is a reduction in resources and thus continues to defer the improvement process. The School Operating Budget has been reduced by $\$ 6,104,935$ million in the past three fiscal years. The things that have been reduced in the budget are still needed. Thus, this review has shown that Montgomery County Public Schools are using the remaining allocated resources as effectively as possible and as approved and directed by the School Board. The Superintendent and School Board are committed to efficiently using resources to ensure that a world-class education is provided to serve all students and families of Montgomery County.

The planning and evaluation process began in September and October 2011 with meetings with the directors, principals, and staff. On November 15, 2011, a public hearing was conducted by the School Board to receive input for the budget planning. The Governor presented the proposed adjustments to the State biennial budget on December 16, 2011. As a result there is a projected decrease of $\$ 1,722,235$ in State revenue. The budget planning process has changed from the school improvement process to identifying expenditures for reduction. The priorities for these reductions were based on three principles: keep students first and lessen the impact on the classroom teacher by reducing budgets and staffing in the central office departments; absorb licensed classroom teacher reductions through attrition; and absorb classified staff reductions by providing opportunities to transfer to other positions in the division whenever possible.

A summary of budget changes was presented to the School Board on January 12, 2012. During January several work sessions were scheduled by the School Board to receive information and evaluate requests and recommendations from the administration, staff, and employee groups. The Superintendent presented the recommended budget to the School Board on January 17, 2012. The School Board on January 26, 2012 adopted an initial budget request for public hearing. A public hearing was held on February 7, 2012 and following the School Board approved an initial budget that was presented to the Board of Supervisors for funding.

During March and April 2012 the School Board made adjustments to the requested budget based on estimated funding from the General Assembly and the Board of Supervisors. The final budget was approved on May 15, 2012. The following is the calendar for the planning, execution, and reporting for the annual budget.

| BUDGET PLANNING CALENDAR <br> FY 2012-13 |  |  |
| :---: | :---: | :---: |
| DATE | DESCRIPTION | LOCATION |
| July - August 2011 | Closeout prior year 2010-11; Distribute budget for current year 201112; Prepare Annual Report 2010-11. |  |
| Sep. 15, 2011 | Annual Report FY 2010-11 due to DOE. |  |
| Oct. 25, 2011 | Preliminary budget planning FY 12-13. Discuss outlook with Directors and Leadership. |  |
| Oct. - Nov. 2011 | Begin update of the Base Budget for FY 12-13. |  |
| Nov. 1, 2011 @ 7:30 PM | School Board meeting. Adopt budget planning calendar. | County Government Center |
| Nov. 15, 2011 @ 7:00 PM | School Board meeting. Public hearing for citizens input. | County Government Center |
| Dec. 16, 2011 | Gov's proposed budget to General Assembly. |  |
| Jan. 4, 2012 | School Board meeting. Discussion of budget and revenue forecast. | County Government Center |
| Jan.12, \& 17, 2012 | School Board budget workshops. | County Government Center |
| Jan. 26, 2012 | School Board adopts budget for public hearing. | County Government Center |
| Feb. 7, 2012 @ 7:00 PM | Public hearing on proposed budget. | County Government Center |
| Feb. 7, 2012 @ 7:30 PM | School Board meeting. Approve initial budget request. | County Government Center |
| Feb.10, 2012 | School Board budget request forwarded to County Administration. |  |
| Mar. 11, 2012 | General Assembly approves to 2012-2014 Biennium State Budget. |  |
| Apr. 17, 2012 | State revenue FY 2011-12 updated based on Mar 31 ADM. |  |
| Apr. 26, 2012 | School Board budget workshops. | County Government Center |
| Apr. 30, 2012 | Initial projection of year-end closeout FY 2011-12. |  |
| April, 2012 | School Board budget request updated based on actions of the General Assembly and the Board of Supervisors. |  |
| May 1, 2012 @ 7:30 PM | School Board adopts budget for public hearing. | County Government Center |
| May 7, 2012 | Cutoff for submission of PO's for FY 2011-12. PO's must be entered, received, and approved in Munis. Finalize 2012-13 budget documents. |  |
| May 15, 2012 @ 7:00 PM | Public hearing on proposed budget. | County Government Center |
| May 15, 2012 @ 7:30 PM | School Board approves final budget for FY 2012-13. | County Government Center |
| May 15, 2012 | Project closeout revenue and expenditures FY 2011-12. Proposed yearend closeout plan presented. |  |
| June 30, 2012 | Close out fiscal year 2011-12. |  |

Note: Items in bold are School Board meeting dates.

## EXPENDITURE CLASSIFICATION CODING

## - Personnel

Includes all division salary, supplement, substitute, and stipend costs as well as unused leave cost estimates.

## - Benefits

Includes all division costs for FICA and medicare taxes, V.R.S. Retirement, Health Insurance, V.R.S. Group Life, Disability insurance coverage, Virginia Unemployment taxes and Worker’s Compensation insurance coverage.

## - Services

Includes purchased professional services, maintenance services, transportation services, advertising, laundry \& dry cleaning and tuition paid by the division. Purchased staff development services are generally charged to these budget codes.

- Others

Included are travel and staff development costs, dues, subscriptions and miscellaneous purchases.

- Textbooks

Includes the division-wide expenditures for textbooks and related materials approved for purchase with textbook funds.

- Supplies

Includes Instructional, Administrative, Maintenance, Transportation, Technology and Vehicle supplies.

- Equipment

Includes purchases of Instructional, Administrative and Technology equipment.

- Fuels/Equipment

Includes division purchases of bus and vehicle fuels and purchases of bus and fleet vehicles.

- Utilities/Insurance

Includes all electric, water, heating, postal and division insurance costs.

## - Debt Service

Includes division cost of principal and interest payments on Literary Fund and V.P.S.A. bonds as well as related debt maintenance fees.

## HISTORY/BACKGROUND

## Mission

The mission of Montgomery County Public Schools (MCPS) is to be a community of excellence that develops each student's full potential to be a lifelong learner and a productive global citizen.

## Vision

MCPS values a high performing learning culture, one that is Preparing Students for: Their Lives, The Community, The World:

- Cultivating positive relationships based on mutual trust, respect, and open communication among all stakeholders;
- Holding high expectations for achievement and accountability through effective practices which actively engage students and staff and instill enthusiasm for learning and teaching;
- Sustaining a nurturing environment that ensures the physical safety and emotional well-being of all individuals within the learning community; and
- Valuing continuous learning and providing growth opportunities for staff, students, and members of the community.

The vision of MCPS also incorporates the following principles:

- All students will enter school ready to learn.
- MCPS will be adequately and responsibly funded and supported by the citizens of Montgomery County.
- Optimal educational achievement will be prompted for all individuals regardless of ability, creed, gender, geographic location, national origin, race, sexual orientation, or socioeconomic status.
- All students will understand and use the latest technologies and information sources. All schools will serve as community centers.
- Volunteerism will be encouraged and supported so that all citizens may be involved in the education of Montgomery County youth.
- All students will learn to live and work in a community that uses its diversity as strength.
- All students will develop an appreciation for the arts and their relationship to academics and community life.
- All students graduating from MCPS will be employable, will have the knowledge and skills to begin a productive and satisfying career, and will be prepared for a life of continued learning.
- MCPS will be a cornerstone for economic development in Montgomery County.

## Demographic Information

- MCPS consists of 11 elementary schools, 4 middle schools, 4 high schools, Independence Secondary (Alternative Education), Rivendell (Special Education) and several administrative buildings.
- Student enrollment is 9,502. Of the students $10.30 \%$ receive gifted education services, $9.55 \%$ receive special educational services, and $2.63 \%$ receive English as a Second Language (ESL) services.
- Ethnicity consists of $84.34 \%$ as White, $4.93 \%$ as Black, $3.49 \%$ as Asian, $3.46 \%$ as Hispanic, $1.80 \%$ as Unspecified, and $0.01 \%$ as American Indian/Alaskan.
- District-wide $35.34 \%$ of the students qualify for the free and reduced lunch and breakfast program.
- Of the recent graduating class $77 \%$ will be attending college or other higher education.
- Of the 984 certified teachers, supervisors, and administrators, about $58 \%$ have advanced degrees.
- MCPS expenditures for FY 2010-2011 were $\$ 10,177$ per pupil in average daily membership.

## Highlights that Impact on the Budget

During the past ten years Montgomery County Public Schools have continued to grow. Student enrollment has increased by over 500 students and improvements have continued in instructional programs. The Federal No Child Left Behind Act of 2001 (NCLB) has had significant impact on our schools and the resulting accreditation standards. All of the 19 MCPS schools are accredited (11 elementary, 4 high schools, and 4 middle schools). As the standards for accreditation continue to increase, this will have an impact on the required resources to meet the standards. The majority of the funding to meet these needs will come from the State and local sources since Federal funding has not increased.

As enrollment has increased and to meet the standards for accreditation, additional staffing has been added to maintain pupil teacher ratios and provide additional support services. The ratio for grades kindergarten to grade three have been maintained at an 19 to 1 level even though the goal in the six year plan is for a 15 to 1 ratio. Resources have not been available to achieve this goal. For grades four to grade eight the ratio has been 20 to 1 and for grades nine to twelve the ratio is 22 to 1 . In addition to meet the health needs of students, additional nursing hours have been added to have a nurse available during school hours at each school.

The budget for FY 2011-2012 included a slight increase in funding due to an increase in State and County revenue. However, the increase in revenue is less than the projected increase in the cost of employee benefits and capital needs. The budget reflected an increase of $\$ 2,663,983$ mostly for an increase in the cost of employee benefits and a $1 \%$ increase in salaries. The projected increase in State revenue of $\$ 810,160$, in Federal revenue of $\$ 263,133$, and carryover of Job Stimulus funds of $\$ 1,166,757$ provides the major increase in funding. Even with this increase, there is a projected decrease of approximately 0.68 FTE's to meet the increase in expenditures. An additional \$700,000 in County General Revenue was provided to balance the budget. Pressure on classroom pupil ratios continued and reductions made in previous years for supplies, equipment, and services will impact classrooms. Although, during the past ten years expenditures per pupil have increased from $\$ 6,862$ to $\$ 10,524$ in FY 2008-2009, the expenditure per pupil declined to $\$ 10,294$ for FY 2009-2010. The expenditure for FY $2010-11$ is $\$ 10,177$ and this is still below the State fiscal year 2010-2011 average of $\$ 10,793$. Projected expenditures per pupil will increase slightly for FY 2011-2012.

The State budget approved by the General Assembly for the 2012-2014 biennium for Montgomery County reflects a significant decrease. This decrease in State revenue further adds to the total decrease of $(\$ 6,104,935)$ in the School Board budget for the past three years. The increase in the Local Composite Index of $5.04 \%$ and changes by the General Assembly reduced State funds by $(\$ 1,301,207)$. Added to this loss of revenue are increases in expenditures for the proposed increase in the VRS employer contribution rate by $5.33 \%$ to $16.66 \%$ that increases expenditures by $\$ 2,694,842$, the proposed increase in Retiree Health Insurance Credit Rate by $0.51 \%$ increases expenditures by $\$ 248,336$, and the proposed increase in Group Life Insurance Rate by $.91 \%$ increases expenditures by $\$ 480,366$. The net impact of the budget changes restricts the School Operating Budget and does not allow for the additional needs and inflation to operate and maintain 20 schools, provide technology to prepare students for the future, and operate an extensive transportation system. The total combined increase in the expenditure budget with the reduction in state revenue and increase in County funds creates a modest increase of $\$ 688,377$ or $0.75 \%$ in the FY 2012-2013 School Operating Budget from the FY 2011-2012 budget. The FY 2012-2013 approved budget is only slightly higher than the School Operating Budget for fiscal year 2007-2008.

The School Board must continue to look to the Montgomery County Board of Supervisors for support as the State shifts financial responsibility for state required services to the local government. The School Board understands this is a significant challenge with the recently approved construction of two high schools and the renovation of a high school for a middle school. The Board of Supervisors responded with bold action to preserve schools and maintain County services with a 12 cent increase in the County real estate tax rate. The School Board was still required to reduce the budget by $(\$ 4,286,837)$ that was submitted to the Board of Supervisors on February 7, 2012. The actions of the Board of Supervisors helped to save teaching positions and avoid having to close or consolidate any schools at this time. This budget will have a major impact on our instructional programs and put on hold the salary improvement plan that was developed to be able to attract and retain a highly qualified staff.

The School Board has put emphasis on improving, renovating, and building new facilities to meet the needs of the $21^{\text {st }}$ Century. In 2001, a new Blacksburg Middle School was completed with a capacity for 1,200 students. In 2003, a new Christiansburg Middle School was completed also with a capacity for 1,200 students. Beginning in 2003, the athletic stadiums for high schools in Auburn, Christiansburg, and Eastern Montgomery were updated, renovated, and had some new construction. Construction of a new Blacksburg High School Stadium was completed in the fall of 2008. In August 2010, the new 600 student Eastern Montgomery Elementary School for the Elliston-Lafayette and Shawsville communities opened. In November 2011 a new 600 student elementary school for the Price's Fork community opened. Also, in July 2011 a PPEA contract was approved for planning, design, and construction of a new 600 student Auburn High School to be completed in July 2013, renovate the existing high school for a 480 student Auburn Middle School to be completed in August 2014, and construction of a new 1400 student Blacksburg High School to be completed in August 2013. Additionally, during the past ten years numerous major building and improvement projects have been completed for all schools. However, the needed improvements, renovations, and new construction continue to increase as buildings become older and capital needs increase at a greater rate than available funds.

The following chart provides a summary of the total expenditures and total revenue for the past 10 fiscal years and the budget for FY 2012-2013. The average increase in the operating budget during this period has been about $\$ 2.6$ million or $3.41 \%$. Adjusting for an average inflation of $2.0 \%$ the real increase in the budget is about $1.41 \%$.

# SCHOOL OPERATING BUDGET <br> EXECUTIVE SUMMARY <br> FY 2012-2013 

## BUDGET NARRATIVE

The following will provide summary information of the approved budget and is followed by detail information for all budget changes. Information is listed for each proposed change to the current budget that includes budget increases and reductions. Proposed increases are included for the addition of funds to provide the match for the proposed increase in State funds for textbooks, additional utilities costs associated with new and larger Eastern Montgomery and Price's Fork Elementary Schools, capital repair funds for year two of roof repair projects, and additional funds to continue the $21^{\text {st }}$ Century Technology Improvement Plan. The budget also includes increases in employee compensation to cover the cost of health insurance premiums, the proposed increase of $5.33 \%$ in the required Virginia Retirement System (VRS) employer contribution rates, increase of $1.05 \%$ in the employer contribution rate for Group Health Insurance Credit, and an increase of . $2 \%$ Group Life Insurance employer contribution rate. Also included is a retirement incentive introduced in the FY 2009-2010 budget for the School Board to continue to pay the single subscriber health insurance premium for up to fours years for employees who are eligible to retire and less than the Medicare age. This incentive will reduce the funds required for salaries from the salary differential of individuals at the top of the pay scales. Due to the down turn in the economy the growth in revenue is expected to be slow. To facilitate the decrease in the overall budget and increases in required contributions, reductions or changes in the current budget will be required to provide funds for these changes. The following is a description of the increases and reductions to the current budget to provide funds for these changes. School improvement plans and compensation improvement plans have been deferred until additional resources become available. Reductions that are made to the current budget will be considered for future funding prior to any new initiatives. The total changes represent a $3.45 \%$ increase from the 2011-2012 approved budget.

| FY 2011-2012 Approved Budg | 91,280,803 |
| :---: | :---: |
| Add: Total of Increases | 4,329,976 |
| Less: Total Reductions. | $(3,641,599)$ |
| Total FY 2012-2013 Budge | 91,969,180 |

## A. Budget Increases -

1. Increase Textbook Budget to Match State Increase - The State budget includes an increase in the SOQ amount per ADM amount for the textbook program. This requires a matching amount based on the Local Composite Index for an increase of \$345,565.
2. Additional Utility Cost New Eastern Montgomery and Price's Fork Elementary Schools - The new schools have added about 162,000 square feet of building space and complete HVAC systems. These improvements provide much needed climate control and eliminate the use of mobile classroom units. The new buildings will increase the utility expense by $\$ 153,340$ per year.
3. Increase for Salary Scales by $\mathbf{1 . 0 \%}$ for VRS Covered Positions for Employee Contributions - The General Assembly action requires employees to begin to pay the $5.0 \%$ contribution to VRS that had been previously paid by State and employer. Action also requires the employer to increase the employee's salary for employees hired prior to July 1, 2012 by equal amount of the contribution increase. The increase in $1.0 \%$ salary cost for this is $-\$ 527,874$.
4. Additional employer benefit cost for the $\mathbf{1 . 0 \%}$ increase in salaries - Increasing employee salaries for the VRS contribution also increases the employer expenses for FICA, VRS, and worker's compensation and unemployment insurance at a cost of \$136,192.
5. Increase in VRS Contribution Rate - The approved budget includes the largest ever increase of $5.33 \%$ in the required contribution rate for VRS for a total rate of $16.66 \%$. $1.0 \%$ of this cost will be paid by the employee per \#3 above and the remaining amount of $4.33 \%$ by the School Board at a cost of $-\$ 2,166,968$.
6. Increase in VRS Health Insurance Credit Contribution Rate - The approved budget includes an increase of $0.51 \%$ in the employer contribution rate to VRS for the professional health insurance credit for a total rate of $1.11 \%$ at a cost of $-\$ 248,336$.
7. Increase in VRS Group Life Insurance Contribution Rate - The approved budget includes an increase of $.91 \%$ in the employer contribution rate to the VRS Group Life Insurance for a total rate of $1.19 \%$ at a cost of - \$480,366.
8. Increase in Health Insurance Premiums - The proposed renewal for health insurance with Anthem is a $2.5 \%$ increase in the premium rates for a cost increase of - $\$ 271,335$.

## B. Budget Reductions -

1. Reduce Instruction Supply Budget - In order to save positions in the budget a further reduction of $5.0 \%$ in the budget for instructional supplies is proposed for a total reduction of $41.4 \%$ since FY 2008-2009 for a reduction of - (\$47,759).
2. Reduce Instructional Equipment Budget - In order to save positions in the budget a further reduction of $5.0 \%$ in the budget for instructional equipment is proposed for a total reduction of 59.5\% since FY 2008-2009 for a reduction of - (\$22,985).
3. Reduce Contract/Purchased Services Budget - In order to save positions in the budget a further reduction of $5.0 \%$ in the budget for contract and purchased services is proposed for a total reduction of $55.0 \%$ since FY 2008-2009 for a reduction of (\$54,235).
4. Reduce Travel Budget - In order to save positions in the budget a further reduction of $5.0 \%$ in the budget for travel is proposed for a total reduction of $35.0 \%$ since FY 20082009 for a reduction of - (\$10,072).
5. Reduce Office Supply Budget - In order to save positions in the budget a further reduction of $5.0 \%$ in the budget for office supplies is proposed for a total reduction of $55.0 \%$ since FY 2008-2009 for a reduction of - $(\$ 8,030)$.
6. Reduce Administrative Vehicle Replacement Budget - In order to save positions in the budget a further reduction of $5.0 \%$ in the budget for office supplies is proposed for a total reduction of $55.0 \%$ since FY 2008-2009 for a reduction of - $(\$ 1,562)$.
7. Reduce Budget for Postage - Recent changes in the processing of mail has resulted in a savings in the cost of postage. The budget for postage is reduced by $17.65 \%$ for a reduction of - (\$15,000).
8. Reduce Budget for Adult Education - Administration of adult education grants beginning July 1, 2012 must be provided through a regional program. Adult educational and GED services will now be provided through the New River Community College regional program and results in a budget reduction of $(\$ 182,838)$.
9. Reduce Cost of Gifted Screening in $\mathbf{2}^{\text {nd }}$ Grade - This eliminates the payment for use of standardized test to screen students. Locally developed screening procedures will be used and standardized testing only when needed to clarify identification for a savings of - (\$8,687).
10. Eliminate Participation in the Governor's Summer Programs - As a budget savings MCPS will no longer participate in the Governor's summer enrichment program for selected students at a savings of $(\$ 7,434)$.
11. Reduce the Purchase of Textbooks - Purchase of new adoptions and replacement textbooks will be reduced and funds will be used for other instructional needs per language in the State budget for a reduction of - (\$200,000).
12. Institute a Four-day Summer Work Week - All buildings, offices, and staff will operate on a four day week from Monday to Thursday during the summer when schools are closed to save on utilities and operating costs for a savings of $-(\$ 60,000)$.
13. Reduce Bus Stops by Increasing Walking Distance - Bus stops will be reduced by requiring elementary students to walk to stops within $3 / 10^{\text {th }}$ of mile and middle and high students within $1 / 2$ mile of their home. Exceptions will only be granted for designated hazardous or unsafe situations for a savings in bus operations of - (\$50,000).
14. Close Shawsville Elementary School - The school building use for special education offices and for the Rivendell program will be closed and relocated for a savings of (\$,50,000).
15. Reduce Utilities to the Old Blacksburg High School - Heating and cooling will no longer be operated for the Old BHS site on Patrick Henry Drive. Electric will be reduced to a minimum for a savings in utilities of $-(\$ 75,000)$.
16. Close All MCPS Buildings During the Winter Break - During the winter break period of $12 / 22 / 2012$ to $01 / 01 / 2013$ utilities will be reduced to a minimum and offices closed. Twelve month employees will be required to use vacation during this period for a savings in operating cost of $-(\$ 7,500)$.
17. Increase the Facility Use Fees - Fees charged for use or rent of MCPS building space will be increased by $20 \%$. Funds received will be used to offset increases in the budget for a savings of $-(\$ 10,000)$.
18. Increase Local Budget for Revenue from E-rate Discounts - Additional funds received for the Universal Services Discount (e-rate) will be used to offset increases in the budget for a savings of $-(\$ 60,000)$.
19. Institute "Pay to Play" for VHSL Athletics and Activities at $\$ 100$ per Sport/Activity with Cap of $\$ 300$ Per Family - Individuals and families will now be required to pay a fee to participate in Virginia High School League sports and activities. The school division does not received funding from State and Federal sources for this and the local funds are needed to maintain academic programs. Projected savings in expenditures is - $(\$ 72,100)$.
20. Add \$100 Deductible for Prescription Drugs - For employee health insurance adding a deductible of $\$ 100$ for prescription drugs reduces $1.0 \%$ on the increase in health insurance premiums for a savings of $-(\$ 108,453)$.
21. Increase Part-time Incentive Eligibility Wait Period by One Year - Part-time employees are eligible to receive an incentive benefit to be used for retirement, health insurance, or other benefits. Currently a part-time employee must work at least 20 hours per week and be employed continuously for two years before receiving the benefit. This increases the waiting period to three years and reduces the cost of the benefit for a savings of - (\$132,000).
22. Savings from Health Insurance Retirement Incentive - The cost of health insurance is a major concern for employees who are eligible to retire but are less than the Medicare retirement age. These are valuable employees but based on their years of service they are usually at the top of the salary scales. As an incentive for those eligible to retire who are less than Medicare age, an incentive is proposed for the employees to
retire, work 25 days as a substitute employee, and continue to receive their health insurance premiums paid by the school division for up to four years. The estimated savings in salaries for 20 employees is a budget savings of $-(\$ 395,120)$.
23. Do Not Hire Replacements for Two Vacant Maintenance Positions - As a cost savings a vacant building engineer and HVAC position will not be filled during the next budget year. These positions will be required when the new high schools open. This is a cost reduction of $-(\$ 97,636)$.
24. Eliminate the Remaining Library Aides - Library aides have been reduced in previous budget and this reduces the budget for the remaining 4 elementary and 2 secondary aides for a savings of $-(\$ 107,208)$.
25. Reduce School Lunch Aides by 50\% - This reduces the number of hours for lunch aide work in half at all elementary schools for a savings of $-(\$ 85,732)$.
26. Reduce 1.5 Central Office Administrators - A half time special education coordinator position and instructional curriculum supervisors are reduce for a savings of 1.5 FTE at a cost of - (\$81,038).
27. Reduce 3.2 FTE for High School Athletic Directors and/or Assign Duties to Assistant Principal - High schools must reduce 3.2 FTE for administrators. Each school will decide how best to do this by reducing either the athletic director or an assistant principal and reassigning duties among the remaining administrative staff at a cost savings of $-(\$ 186,880)$.
28. Reduce Staffing for Middle School In School Suspension Programs - Middle Schools will need to reduce the ISS staffing to continue to support middle school athletic supplements or reduce supplements for a savings of $-(\$ 28,959)$.
29. Reduce Full-Time Equivalent (FTE's) Staffing - To balance the budget total staffing will need to be reduced by approximately 25.26 FTE’s. An FTE is equal to $\$ 58,400$ per position on average. The total number of actual positions could be greater or lesser based on the individual salaries and benefits for each position. Reductions are projected to be made through attrition for a cost savings of - (\$1,475,291).

## Other items not currently funded:

- Provide a Building Capital Repair/Improvement Budget Line Item - This is a continuing budget requests to create an identified source of funds for building repairs and improvements. In the past, year-end funds have been re-appropriated when available to fund these repairs. This makes planning difficult and limits when the work can be accomplished without disrupting the school year. An amount to begin a budget was included in the original request but is not including in this budget. When a source of funds is identified it will be used for repair and replacement of building roofs in accordance with the roof maintenance plan in the amount of $\$ 250,000$.
- Technology Improvement Plan Budget Line - From the 2009-2010 budget one time year-end funds, $\$ 500,000$ was designated and re-appropriated to begin an improvement plan for technology in all schools. In order to continue this plan, funds were added of $\$ 250,000$ in FY 2011-12 budget to facilitate the planning and implementation as opposed to the use of year-end funds that may or may not be available. Additional funds were requested in the original budget but are not included in this budget. If a source of funds is available then it will be added to increase the budget by $\$ 150,000$.
- Increase for Replacement of Aging School Buses - With a fleet of 125 buses and recommended use of ten years on daily routes plus two years as a spare, the school division should replace 10 to 12 buses per year. During the past two fiscal years only four buses
have been replaced. Older buses with high mileage require more maintenance and experience a greater frequency of operating failures. The cost of a new school bus is about $\$ 87,500$. The original budget included $\$ 350,000$ to replace four buses but it is not included in this budget.

The total net increase in expenditures is $\mathbf{\$ 6 8 8 , 3 7 7}$ or an increase of $\mathbf{0 . 7 5 \%}$. The following lists changes and reductions by the major functional areas of Instruction; Administration, Health \& Attendance; Transportation; Operations \& Maintenance; and Non-Instruction.

## REVENUE SUMMARY

BUDGET FY 2012-13

STATE - The Governor's introduced budget for fiscal year 2012-2013 included changes for adjustments in enrollment, adjustments for sales tax revenue, changes in estimates for lottery proceeds, and other adjustments to incentive accounts. The overall proposed Governor's budget was a reduction of $(\$ 1,722,235)$ in State revenue or a reduction of $3.56 \%$. Major impacts of the Governor's proposed budget included:

1. The increase in the Local Composite Index of $5.04 \%$ reduced State funds $-(\$ 2,611,575)$.
2. Adjustments increased the budget $\$ 889,340$ for a net reduction of $(\$ 1,722,235)$.
3. Proposed increase in the VRS employer contribution rate by $5.33 \%$ to $16.66 \%$ - increased expenditures $\$ 2,694,842$.
4. Proposed increase in Retiree Health Ins. Credit Rate by $1.05 \%$ to $1.11 \%$ - increased expenditures $\$ 511,280$.
5. Proposed increase in Group Life Ins. Rate by $.20 \%$ to $.48 \%$ - increased expenditures \$139,965.
6. Governor's proposed budget eliminated the Composite Index Hold Harmless funds - this offset was used to soften the loss of state revenue due to composite index change.
7. The net impact of the Governor's Proposed Budget - shortfall of $(\$ 5,068,322)$

The General Assembly revised the Governor's proposed budget and the approved General Assembly budget reflects a reduction of $(\$ 1,301,207)$. Major changes include:

1. Technical updates and re-bench marking of cost factors in the state funding formula.
2. Supports the Governor's increase in required contribution rate for VRS of $5.33 \%$ to $16.66 \%$.
3. Beginning July 1, 2012 all employees will be required to begin paying the employee $5 \%$ share of the VRS total rate. This may be phased in and employee salary must be increased by equal amount of the required contribution.
4. Provides assistance for the increase in retirement contribution rate, restores some inflation factor for non-personal expenditures, and supports increase for pre-school costs for an increase of \$460,246.
5. Increases the projection for sales tax receipts and this is subtracted from basic aide.
6. Increases projection for lottery proceeds and moves more items from lines funded by general revenue to lottery proceeds funding resulting in minimal budget increase.

FEDERAL - Grants under No Child Left Behind for Title I and for Title VI Pre-school grant have been increased while other grants have decreased. Federal funds must be used in accordance with the approved program and funds are received as a reimbursement for actual expenditures. This estimate is based on Federal projects approved for FY 2011-12. The final approval for Federal grants for FY 201213 will not be received until after the start of the fiscal year. Funds are received as a reimbursement for actual expenditures and any additional revenue will be requested as a supplemental appropriation to the FY 2012-13 budget when additional information is received. Federal funds are projected to increase by \$4,562.

COUNTY - The School Board requested an increase of $\$ 8,575,867$ from the Board of Supervisors for the FY 2012-2013 budget. This request was based on the needs of the school division due to the reduction in State revenue and significant increase in required employer contributions to VRS. The Board of Supervisors approved an increase of $\$ 3,328,198$ to the School Board Operating Budget for FY 2012-2013. The main source of county funding for schools is from real property taxes and the real estate tax rate was increased in FY 2011-2012 by 1 cent from 74 cents to 75 cents per $\$ 100$ dollars of
assessed value. The Board of Supervisors increased the real property tax rate by 12 cents to 87 cents per $\$ 100$ dollars of assessed value for the 2012-2013 budget. This increase was mainly for the debt service on the new schools and the courthouse with 2 cents to support the schools and offset the reduction in state revenue. Even with this increase the School Board is required to reduce the School Operating Budget.

LOCAL - The total local revenue is projected to increase by $\$ 48,500$ to reflect the increase in rental of school property and other receipts. Various miscellaneous receipts for rents, tuition, fees, and etc. are projected to remain at the same level, as per the following page for local revenue.

## CURRENT BUDGET

The budget for fiscal year 2012-2013 includes funds to provide a step increase in the salary scales. Due to the economic downturn and reduction in revenue, resources are not available to provide a cost of living increase to employee salaries. Although the School Board objective remains to compensate employees with a competitive salary and to maintain salaries that enhance the ability to attract and retain highly qualified employees, this will continue the challenge to provide competitive employee compensation. The following charts provide information on how our salaries rank in comparison to surrounding school divisions and in comparison to a statewide comparison band.

## HISTORY/BACKGROUND

During the budget preparation for the fiscal year 2001-02 budget, a plan was developed to improve the competitive ranking of employee salaries in comparison to surrounding school systems and to other comparable statewide school systems. Based on the identified target salary ranges, a three-year plan was developed that considered the increases that would be required to achieve the targets. The budget for FY 2001-02 included a 4.5\% increase in compensation and resulted in some improvement in the target rankings. The budgets for FY 2002-03 and FY 2003-04 were only able to include funds for a step increase that was an average increase of $1.9 \%$. Review of the comparison data for FY 2003-2004 indicated that most of the target salaries for Montgomery County Public Schools had dropped or made no improvement in the comparison rankings. The budget for FY 04-05 included a new three-year plan to improve salaries so that average salaries would move closer to the State average. This plan, developed jointly by the Montgomery County Education Association (MCEA) and the administration, was based on targeting benchmark salaries that are based on the average benchmarks computed from the salary scales for all 132-school divisions. The plan included a three-year phase-in of the plan to move to the target salaries. The average benchmarks based on the FY 2003-04 salary scales were increased by a factor of $2 \%$ per year to create the target at the end of three years. The target was then used to establish the salary scales for each year of the plan.

The FY 04-05 budget included a 6.88\% increase for compensation. The budget implemented the proposed teacher compensation improvement plan and increased other salary schedules by an average of $6.88 \%$. Adjustments were made to salary schedules and the percentage increase by employee varied based on where the employee was positioned on the salary schedule. In general, all employees received a step increase plus an adjustment to the salary schedule. Some employees at the top of or off the scale received only the adjustment to the scale and were not eligible for a step increase.

The Budget for FY 05-06 included an increase of 4.0\% in the budget for salaries. Adjustments were made to salary schedules and the percentage increase by employee varied based on where the employee was positioned on the salary schedule. In general, all employees received a step increase plus an adjustment to the salary schedule. Some employees at the top of or off the scale received only the adjustment to the scale and were not eligible for a step increase.

The FY 06-07 final budget included a 5.5\% increase in the budget for compensation (1.7\% step plus $3.8 \%$ cola adjustment to salary scales) at a total cost of $\$ 3,618,797$ ( $\$ 919,314$ step cost plus $\$ 2,699,483$ adjustment to salary scales). In general, all employees received a step increase plus an
adjustment to the salary schedule. Some employees at the top of or off the scale received only the adjustment to the scale and were not eligible for a step increase.

The budget approved by the School Board for FY 2007-08 included a $2.0 \%$ increase for compensation ( $1.6 \%$ step increase and a $0.4 \%$ COLA increase in salary scales) for a total cost of $\$ 1,416,453$. This increase was significantly less than total increase of $8.4 \%$ that was needed for implementation of the salary improvement plan adopted in FY 2004-05. The salary improvement plan was deferred to future budget years.

The budget for fiscal year 2008-2009 included an $8.6 \%$ increase in the budget for compensation. This percent increase was the amount needed to fully implement the salary improvement plan that was adopted in FY 04-05 and that had not been fully funded or implemented in prior years. The total budget increase was $\$ 6,061,831$ ( $1.6 \%$ step @ $\$ 1,081,121$ plus $7.0 \%$ COLA @ $\$ 4,980,710$ ). Adjustments were made to salary schedules and the percentage increase by employee varied based on where the employee was positioned on the salary schedule. In general, all employees received a step increase plus an adjustment to the salary schedule. Some employees at the top of or off the scale received only the adjustment to the scale and were not eligible for a step increase.

The budget for fiscal year 2009-2010 does not include any increase for employee compensation. Due to the economic downturn and reduction in revenue, resources are not available to increase employee salaries. The teacher salary scale added a zero step and all employees remained at the same salary level.

The budget for fiscal year 2010-2011 does not include any increase for employee compensation. Due to the economic downturn and reduction in revenue, resources are not available to increase employee salaries.

The budget for fiscal year 2011-2012 included a one percent raise based on the current salary scales with those at or beyond the top of the scales also included. This raise was an across the board increase in salaries of $1.0 \%$ at a total cost of $\$ 847,410$.

The budget for fiscal year 2012-2013 includes funds to provide a one percent increase in the salary scales for employees participating in the Virginia Retirement System (VRS). This one percent increase is to off-set the one percent VRS contribution the employee will begin paying July 1, 2012. Due to the economic downturn, additional resources are not available to provide any raise or a cost of living increase to employee salaries. Although the School Board objective remains to compensate employees with a competitive salary and to maintain salaries that enhance the ability to attract and retain highly qualified employees, this will continue the challenge to provide competitive employee compensation.

Student enrollment is expected to increase slightly as projected by the DeJong and Associates study and staff projections based on current enrollment. The following chart illustrates the recent past years and projected average daily membership. ADM numbers are projected as of March 31 for each year. The membership used for budget planning for FY 2011-12 was based on 9,465 students. ADM for FY 2012-13 is projected to be 9,502 students and is 37 more than the current budget level of 9,465. This reflects that the current growth will continue to be moderate with additional increase in future years. State revenue is projected based on the projected March 31, 2013 ADM enrollment of 9,502.

## STUDENT MEMBERSHIP

| SCHOOL | ACTUAL | ACTUAL | ACTUAL | ACTUAL | PROJECTED |

| MiddIe/High | 5047 | 5070 | 4931 | 5045 | 5024 |
| TOTAL | 9518 | 9495 | 9355 | 9407 | 9502 |

The proposed renewal rates for FY 2012-2013 for the plan year that begins October 1, 2012, project an increase of $2.5 \%$ in premium rates. The budget includes an estimated increase of $\$ 271,335$. The proposed renewal includes the Keycare 15 and HMO 15 and is modified for minor adjustments to comply with legislative changes. The two plans available for employees (Keycare 15 and HMO 15) will continued to be paid by the School Board for the full single premium rate. Fully insured plans will continue to be provided from Anthem.

The attached chart reflects the last five years of health insurance premiums and the single premium rates.

## HEALTH INSURANCE COST OPERATING BUDGET

| YEAR | PPO | HMO |
| :---: | :---: | :---: |
| 2009 | $6,967.00$ | $6,409.80$ |
| 2010 | $7,144.50$ | $6,573.10$ |
| 2011 | $7,192.30$ | $6,649.80$ |
| 2012 | $7,588.80$ | $7,007.90$ |
| 2013 | $7,760.04$ | $7,294.44$ |

NOTE: Based on School Board's cost for $100 \%$ of single premium rate. Anthem Blue Cross and Blue Shield rates for policy year beginning Oct. 1, 2012.

## SCHOOL OPERATING BUDGET FTE SUMMARY

The following page includes the staffing for FY 2011-2012 and the proposed reduction in staffing for FY 2012-2013. The data is presented for approved positions based on a full-time equivalent (FTE) for each category. This includes adjustments that have been approved by the School Board for staffing during FY 2011-2012 school year. The approved budget includes a decrease of 35.52 FTE positions due to the increase in expenditures for other employee benefits that exceed the increase in revenue.

## Overview

The Virginia Department of Education reviews available texts and integral instructional materials every six years in each academic subject area. Recent modifications to the DOE review schedule were made to mirror revisions of the Virginia Standards of Learning. The Virginia DOE negotiates a state contract with the publishers who are placed on the state adoption list for all texts and materials associated with the adoption. The prices established with the publishers determine the costs of texts and materials to local divisions. Average costs of textbooks range from approximately $\$ 30.00$ at first grade to $\$ 65.00$ at middle school and $\$ 90.00$ at high school. Teacher resource packages, essential to the appropriate use of textbooks and accompanying resources, generally are provided free of charge at the level of one resource package per 25 or 30 students. Because MCPS class sizes are lower than the established "no charge" ratio, MCPS has to purchase additional teacher resource packages at an average cost of $\$ 400.00$ per package. Teacher resource packages generally include software for lesson planning, transparencies or software for visual instructional aids, and student assessments. At the elementary level, teacher resource packages may also include re-teaching software and content libraries for the classroom.

The following is the current schedule for academic textbook/instructional materials, with the resulting revised MCPS adoption and purchase schedule. Note that MCPS has followed, for many years, a phased-in approach to the review and purchase of certain texts in order to maintain a somewhat balanced expenditure of funds across fiscal years. Other modifications to the schedule may occur as the DOE makes revisions to regulations or curriculum or as teachers indicate that a delay or acceleration of an adoption is needed.

## Textbook Adoption Calendar

The calendar below reflects the year during which the content supervisors lead a review of Core Textbooks/Resources and present a list of texts/resources to the MCPS School Board for adoption. The purchase of adopted texts is dependent on funding and may be budgeted over several years. Implementation follows purchasing and may be phased in based on purchasing.

## School Profiles

Profiles are provided for the 11 Elementary Schools, 4 Middle Schools, and 4 High Schools. Student enrollment numbers are projected data moving the current grade levels forward and projecting kindergarten enrollment. Staffing numbers are based on the current level of staffing. Pupil teacher ratios are computed based on the projected enrollment and current staffing.

Expenditure data lists the current budget for classroom instruction, media/library support, and office of the principal accounts. Projected budget is the current budget plus expenditure adjustments in the base budget. For individual school profiles, salary and benefits are not listed by school and only reflected on the summary pages.

## Department Profiles

Profiles are provided for departments and major program areas. These profiles list the current staffing by title or function. Expenditure data reflect the current budget to include the budget for salaries and benefits. The projected budget is the current budget plus expenditure adjustments in the proposed budget. Some positions may appear in more than one profile based on listing positions by the department providing supervision versus listing by the program function. For example, Career and Technical Education teachers are listed under each school's profile and also under the program profile for Career and Technical Education.
