## SUPERINTENDENT'S MESSAGE Students First: Looking to the Future

## FOREWORD

Preparing Students For: Their Lives, The Community, The World. In Montgomery County Public Schools (MCPS), our first and foremost priority is to ensure our history of excellence in education continues each and every year. Our mission is to be a community of excellence that develops each student's full potential to be a lifelong learner and a productive global citizen. The following are some of our division's major accomplishments during the 2012-2013 school year.

- MCPS was recognized as a Green School Division by the Virginia School Boards Association
- MCPS received an Award of Excellence for the division's community newsletter by the Chesapeake Chapter of the National School Public Relations Association
- Five Montgomery County schools earned recognition by the Virginia Department of Education in the Virginia Index of Performance (VIP) Incentive Program.
- Thirty-four MCPS teachers now hold the prestigious National Board Certification.
- Montgomery County was named a Top Community in Music Education.
- Several MCPS students qualified to participate in DECA’s International Career Development Conference.
- Numerous achievements by the MCPS athletic teams, which are highlighted via the many levels of district, regional and state recognitions.

MCPS is committed to excellence in education. It is a privilege to serve the students and families of Montgomery County. There are many ways for parents to be involved in MCPS. Please talk with your school principal about how you may contribute to our schools and to your child's success through mentoring, the PTA/PTO, attendance at special events, or other opportunities. We look forward to working with you and your child in the 2013-2014 school year.

Despite the budget challenges of these unprecedented financial times, MCPS remains committed to providing students with world class opportunities. Partnerships with Virginia Tech, Radford University, New River Community College, and other area cultural organizations provide unique learning opportunities for our schools and our students. Our classrooms are staffed by highly qualified teachers that deliver challenging curriculum. Teaching and learning are our core missions and as such they are the focus of our resources. The College Zone program allows MCPS enrolled students to earn college level credits while taking high school classes. There are also dual credit course offerings, Advanced Placement courses, virtual classrooms, business internships and the Campus Transition program that allows special education students to attend college while they are still students in MCPS.

As we approached the budget development for fiscal year 2013-2014, an extensive review of the existing budget had been accomplished. This review involved a complete analysis of programs and staffing in the current budget. We also conducted a community meeting to receive input on what is important to our community. The budget adopted by the School Board reflects this review and the adjustments required to meet these priorities. Due to limited resources all items could not be funded and the main focus has been to preserve the core mission of teaching and learning while retaining and rewarding highly qualified staff. The Superintendent and School Board are committed to efficiently using resources to ensure that a world-class education is provided to serve all students and families of Montgomery County.

The budget for fiscal year 2013-2014 will continue to present a challenge due to the downturn in the economy and the slow growth projected in state and local revenues. However, emphasis will continue to focus on the educational needs of the students of Montgomery County, and we will continue to provide quality instruction that emphasizes differentiation in an inclusive setting. Although reductions to the expenditure budget will still be required, efforts will be made to protect key instructional programs. Any restrictions on expenditures will have an impact on the classroom instruction either through the reduction of supplies and materials or by the lack of funding to do repairs and improvements to the school building. Reductions in positions will be approached as much as possible through attrition and could result in an increase in overall pupil teacher ratios. Student enrollment during the past year increased slightly, and it is projected to increase slightly in the 20132014 budget. Meeting the many challenges presented by the federal legislation and the State Standards of Quality and Standards of Accreditation will be a challenge in this budget.

The State budget approved by the General Assembly for the 2013-2014 biennium for Montgomery County reflects a slight increase of $\$ 700,158$. This increase does not make up for the total decrease of $(\$ 9,642,842)$ in State revenue for the past six years. With support from the Board of Supervisors to help offset this decrease, the School Board budget has decreased by $(\$ 2,697,552)$ for the past six years. The increase in the Local Composite Index of $5.04 \%$ and other changes by the General Assembly are major reductions to the current biennium State budget. Added to this loss of revenue are continuing increases in expenditures for the proposed increase in the VRS employer contribution rate and the shifting of the employee contribution back to the employee. The net impact of the budget changes restricts the School Operating Budget and does not allow for the additional needs and inflation to operate and maintain 20 schools, provide technology to prepare students for the future, and operate an extensive transportation system. The total combined increase in the expenditure budget with the reduction in state revenue and increase in County funds creates a modest increase of $2.96 \%$ in the FY 2013-2014 School Operating Budget from the FY 2012-2013 budget. The FY 2013-2014 approved budget is still less than the School Operating Budget approved for fiscal year 2008-2009.

The School Board must continue to look to the Montgomery County Board of Supervisors for support as the State shifts financial responsibility for state required services to the local government. The School Board understands this is a significant challenge with the recently approved construction of two high schools and the renovation of a high school for a middle school. The Board of Supervisors for the 2012-2013 budget responded with bold action to preserve schools and maintain County services with a 12 cent increase in the County real estate tax rate. The action by the Board of Supervisors demonstrates continual support for our schools and reflects an increase of $\$ 2,337,990$ or a $5.88 \%$ increase in County funding.

## BUDGET PLANNING ASSUMPTIONS

* Resources will be directed to ensure all schools are accredited and meet the Adequate Yearly Progress (AYP) requirements of No Child Left Behind.
* Pupil teacher ratios will increase as budget reductions are absorbed.
- Grade $\mathrm{K}-3$ ratio of 20 to 1 not to exceed 22 to 1
- Grade $4-8$ ratio of 21 to 1 not to exceed 25 to 1
- Grade 9-12 ratio not to exceed 25 to 1
* Total projected student average daily membership (ADM) for March 31, 2014, is 9,552 and is an increase of 50 students from the budget of 9502 for March 31, 2013 enrollment. This reflects that the ADM for FY 2013-2014 will continue to be stable with moderate growth in student enrollment.
* State revenue will increase with modest gain as the economy reflects slow growth.
* Additional County funds will be limited as the County experiences a slow growth in local revenue with the gradual recovery in the economy.

The budget process is comprised of planning, preparation, adoption, implementation and evaluation. As we approach the budget development for fiscal year 2013-2014, an extensive review of the existing budget has been accomplished. This review involved a modified zero based process. Programs, functions, and staffing were reviewed to identify possible areas that exceeded needs, areas that required additional funds, and the impact of reducing funds available for all programs. In addition, using the school improvement process we looked at areas that should be updated and realigned with current programs and needs. The budget reflects this review and presents the adjustments required to carry forward the current approved programs and functions. The state revenue and the proposed State Budget for FY 2013-2014 include a small increase in funding. This ongoing restriction on resources has a negative financial impact on the school improvement process, and thus continues to limit the improvement process to areas that do not require any additional funding. The School Operating Budget has been reduced by $\$ 2,697,552$ million in the past six fiscal years. The things that have been reduced in the budget are still needed. Thus, this review has shown that Montgomery County Public Schools are using the remaining allocated resources as effectively as possible and as approved and directed by the School Board. The Superintendent and School Board are committed to efficiently using resources to ensure that a world-class education is provided to serve all students and families of Montgomery County.

The planning and evaluation process began in September and October 2012 with meetings with the directors, principals, and staff. On November 12, 2012, a community public hearing was conducted by the School Board to receive input for the budget planning. The Governor presented the proposed adjustments to the State biennial budget on December 17, 2012. As a result there was a projected increase of $\$ 700,159$ in State revenue. The budget planning process continued to be restricted from the school improvement process to identifying expenditures for reduction. The priorities for reductions and budget adjustments are based on three principles: keep students first and lessen the impact on the classroom teacher by reducing budgets and staffing in the central office departments; absorb licensed classroom teacher reductions through attrition; and absorb classified staff reductions by providing opportunities to transfer to other positions in the division whenever possible.

A summary of the Governor's proposed budget was presented to the School Board on January 8, 2013. On January 14, 2013 the Superintendent presented recommendations to the School Board for consideration in their budget request to the Board of Supervisors. The School Board on January 22, 2013 adopted an initial budget request for a public hearing on January 29, 2013. The School Board approved a budget request on February 5, 2013 that was presented to the Board of Supervisors for funding.

During March and April 2013 the School Board made adjustments to the requested budget based on estimated funding from the General Assembly and the Board of Supervisors. The final budget was approved on May 7, 2013. The following is the calendar for the planning, execution, and reporting for the annual budget.

| $\begin{gathered} \text { BUDGET PLANNING CALENDAR } \\ \text { FY 2013-14 } \end{gathered}$ |  |  |
| :---: | :---: | :---: |
| DATE | DESCRIPTION | LOCATION |
| July - August 2012 | Closeout prior year 2011-12; Distribute budget for current year 2012-13; Prepare Annual Report 2011-12. |  |
| Sep. 17, 2012 | Annual Report FY 2011-12 due to DOE. |  |
| September, 2012 | Preliminary budget planning FY 13-14. Discuss outlook with Directors and Leadership. |  |
| Oct. - Nov. 2012 | Begin update of the Base Budget for FY 13-14. |  |
| Oct. 16, 2012 @ 7:30 PM | School Board meeting. Adopt budget planning calendar. | County Government Center |
| Nov. 12, 2012 | Special Meetings for Community Input | Christiansburg High School |
| Dec. 17, 2012 | Gov's proposed budget to General Assembly. |  |

| May 10, 2013 | Cutoff for submission of PO's for FY 2012-13. PO's must be entered, received, and approved in Munis. Finalize 2013-14 budget documents. |  |
| May 21, 2013 | Project closeout revenue and expenditures FY 2012-13. Proposed year-end closeout plan presented. |  |
| June 30, 2013 | Close out fiscal year 2012-13. |  |

Note: Items in bold are School Board meeting dates.

## - Personnel

Includes all division salary, supplement, substitute, and stipend costs as well as unused leave cost estimates.

- Benefits

Includes all division costs for FICA and medicare taxes, V.R.S. Retirement, Health Insurance, V.R.S. Group Life, Disability insurance coverage, Virginia Unemployment taxes and Worker’s Compensation insurance coverage.

- Services

Includes purchased professional services, maintenance services, transportation services, advertising, laundry \& dry cleaning and tuition paid by the division. Purchased staff development services are generally charged to these budget codes.

- Others

Included are travel and staff development costs, dues, subscriptions and miscellaneous purchases.

- Textbooks

Includes the division-wide expenditures for textbooks and related materials approved for purchase with textbook funds.

- Supplies

Includes Instructional, Administrative, Maintenance, Transportation, Technology and Vehicle supplies.

- Equipment

Includes purchases of Instructional, Administrative and Technology equipment.

- Fuels/Equipment

Includes division purchases of bus and vehicle fuels and purchases of bus and fleet vehicles.

- Utilities/Insurance

Includes all electric, water, heating, postal and division insurance costs.

- Debt Service

Includes division cost of principal and interest payments on Literary Fund and V.P.S.A. bonds as well as related debt maintenance fees.

## Mission

The mission of Montgomery County Public Schools (MCPS) is to be a community of excellence that develops each student's full potential to be a lifelong learner and a productive global citizen.

## Vision

MCPS values a high performing learning culture, one that places "Students First" by:

- Cultivating positive relationships based on mutual trust, respect, and open communication among all stakeholders;
- Holding high expectations for achievement and accountability through effective practices which actively engage students and staff and instill enthusiasm for learning and teaching;
- Sustaining a nurturing environment that ensures the physical safety and emotional well-being of all individuals within the learning community; and
- Valuing continuous learning and providing growth opportunities for staff, students, and members of the community.

The vision of MCPS also incorporates the following principles:

- All students will enter school ready to learn.
- MCPS will be adequately and responsibly funded and supported by the citizens of Montgomery County.
- Optimal educational achievement will be prompted for all individuals regardless of ability, creed, gender, geographic location, national origin, race, sexual orientation, or socioeconomic status.
- All students will understand and use the latest technologies and information sources. All schools will serve as community centers.
- Volunteerism will be encouraged and supported so that all citizens may be involved in the education of Montgomery County youth.
- All students will learn to live and work in a community that uses its diversity as strength.
- All students will develop an appreciation for the arts and their relationship to academics and community life.
- All students graduating from MCPS will be employable, will have the knowledge and skills to begin a productive and satisfying career, and will be prepared for a life of continued learning.
- MCPS will be a cornerstone for economic development in Montgomery County.

## Demographic Information

- MCPS consists of 11 elementary schools, 4 middle schools, 4 high schools, Independence Secondary (Alternative Education), Rivendell (Special Education) and several administrative buildings.
- Student enrollment is projected to be 9,552 . Of the students $15.25 \%$ receive gifted education services, $12.31 \%$ receive special educational services, and $2.91 \%$ receive English as a Second Language (ESL) services.
- Ethnicity consists of $84.23 \%$ as White, $4.78 \%$ as Black, $3.62 \%$ as Asian, $3.62 \%$ as Hispanic, $3.53 \%$ as Unspecified, and $0.22 \%$ as American Indian.
- District-wide $38.78 \%$ of the students qualify for the free and reduced lunch and breakfast program.
- Of the recent graduating class $77 \%$ will be attending college or other higher education.
- Of the 984 certified teachers, supervisors, and administrators, about $58 \%$ have advanced degrees.
- MCPS expenditures for FY 2012-2013 were \$9,928 per pupil in average daily membership.

## Highlights that Impact the Budget

During the past ten years Montgomery County Public Schools have continued to grow. Student enrollment has increased by over 500 students and improvements have continued in instructional programs. The Federal No Child Left Behind Act of 2001 (NCLB) has had significant impact on our schools and the resulting accreditation standards. All of the 19 MCPS schools are accredited (11 elementary, 4 high schools, and 4 middle schools). As the standards for accreditation continue to increase, this will have an impact on the required resources to meet the standards. The majority of the funding to meet these needs will come from the State and local sources since Federal funding has not increased.

As enrollment has increased and revenue decreased it has been a challenge to maintain the pupil teacher ratios and provide additional support services. The ratio for grades kindergarten to grade three have been maintained at an 19 to 1 level even though the goal in the six year plan is for a 15 to 1 ratio. Resources have not been available to achieve this goal. For grades four to grade eight the ratio has been about 21 to 1 and for grades nine to twelve the ratio is 22 to 1 . In addition to meet the health needs of students, additional nursing hours have been added to have a nurse available during school hours at each school.

The budget for FY 2012-2013 included a slight increase $\$ 688,377$ in funding due to an increase in County revenue. State revenue continued to decline while the cost of operations continued to increase. Although, during the past ten years expenditures per pupil had increased to $\$ 10,177$ in FY 2010-2011, the expenditure per pupil declined slightly to $\$ 10,102$ for FY 2011-2012. This expenditure for FY 2011-2012 is still below the State average. Projected expenditures per pupil will increase slightly for FY 2012-2013.

The Governor's proposed budget for the 2013-2014 biennium for Montgomery County reflected a slight increase of $\$ 615,891$ and final budget approved by the General Assembly included an increase of $\$ 700,158$. This increase in State revenue, although positive, did not offset the reduction of ( $\$ 10,343,000$ ) in State revenue for the prior five years. Added to this loss of revenue are increases in expenditures for the proposed changes in the VRS as the remaining $4.0 \%$ of the employer contribution rate is shifted to employees at an additional cost of $\$ 552,968$; the proposed increase in employee compensation of $2.0 \%$ at a cost of $\$ 1,625,000$; the proposed increase health insurance premiums by $2.5 \%$ at a cost of $\$ 230,600$; the possible reduction of Federal funds due to sequestration of $5.0 \%$ at a cost of $\$ 214,675$; the added operational cost of opening two new modern high schools at a cost of $\$ 224,000$; adding back a portion of the prior year reduced instructional supplies to meet inflation at a cost of $\$ 300,000$; restoring two maintenance positions to support the new high schools; and replacing funds for pay-to-play that were reduced in the 2012-13 budget but not implemented at a cost of $\$ 72,100$. This increased the School Operating budget by $\$ 2,719,005$. An additional $\$ 575,000$ was provided by the Board of Supervisors as one time funding for roof repairs, bus replacement, and technology improvements. The net impact of the budget changes continues to restrict the School Operating Budget and does not allow for the additional needs and inflation to operate and maintain 20 schools, provide technology to prepare students for the future, and operate an extensive transportation system. The total combined increase in the expenditure budget with the modest increase in state revenue, continues to create a need to request support from the County in order to maintain the quality of the Montgomery County Public Schools.

The School Board must again look to the Montgomery County Board of Supervisors for support as the State shifts financial responsibility for state required services to the local government. The

School Board understands this is a significant challenge with the recently approved construction of two high schools and the renovation of a high school for a middle school. The Board of Supervisors responded with bold action to preserve schools and maintain County services with a 12 cent increase in the County real estate tax rate for 2012-2013. The actions of the Board of Supervisors helped to save teaching positions and avoid having to close or consolidate any schools at this time. The actions of the Board of Supervisors to provide an increase of $\$ 2,337,990$ from County funds again demonstrates strong support for Montgomery County Public Schools.

The School Board has put emphasis on improving, renovating, and building new facilities to meet the needs of the $21^{\text {st }}$ Century. In 2001, a new Blacksburg Middle School was completed with a capacity for 1,200 students. In 2003, a new Christiansburg Middle School was completed also with a capacity for 1,200 students. Beginning in 2003, the athletic stadiums for high schools in Auburn, Christiansburg, and Eastern Montgomery were updated, renovated, and had some new construction. Construction of a new Blacksburg High School Stadium was completed in the fall of 2008. In August 2010, the new 600 student Eastern Montgomery Elementary School for the Elliston-Lafayette and Shawsville communities opened. In November 2011 a new 600 student elementary school for the Price's Fork community opened. Also, in July 2011 a PPEA contract was approved for planning, design, and construction of a new 600 student Auburn High School to be completed in July 2013, renovate the existing high school for a 480 student Auburn Middle School to be completed in August 2014, and construction of a new 1400 student Blacksburg High School to be completed in August 2013. Additionally, during the past ten years numerous major building and improvement projects have been completed for all schools. However, the needed improvements, renovations, and new construction continue to increase as buildings become older and capital needs increase at a greater rate than available funds.

The following chart provides a summary of the total expenditures and total revenue for the past 10 fiscal years and the budget for FY 2013-2014. The average increase in the operating budget during this period has been about $\$ 2.2$ million or $0.73 \%$ adjusted for an average inflation of $2.0 \%$.

## EXECUTIVE SUMMARY

## BUDGET NARRATIVE

The following will provide summary information of the approved budget and is followed by detail information for all budget changes. Information is listed for each proposed change to the current budget that includes budget increases. Proposed increases are included for the cost of a $2.0 \%$ salary increase for all employees based on the Governor's proposed increase for instructional positions and other changes per the following list in order to maintain the current level of schools and instructional programs. Due to the down turn in the economy the growth in revenue is expected to be slow. School improvement plans and compensation improvement plans have been deferred until additional resources become available. This budget includes restoring some items that have been reduced in prior budgets. The total changes represent a $2.96 \%$ increase from the 2012-2013 approved budget.

## Budget Increases -

1. Offset for the Reduction of Federal Title Funds due to Sequestration of $5.0 \%$ - The budget discussions by the Federal government include possible automatic cuts to the Title grants we receive due to the sequestration agreement. These funds support our most needy identified student population based on special education services or low social economic conditions at a cost of $-\$ 214,675$.
2. Additional Utility Cost New Auburn High and Blacksburg High Schools - The new schools will add about 114,033 square feet of building space and complete HVAC systems. These improvements provide much needed space and climate control. The new buildings will increase the utility expense per year by - $\$ 224,000$.
3. Reinstate Previous Cuts for Instructional Supplies - The prior budgets reduced instructional supplies by $\$ 1,370,000$. During this period prices have continued to increase and these reductions are having a negative impact on the ability of schools to support instructional programs. This restores about $15 \%$ of previous reductions at a cost of $\$ 300,000$.
4. Increase in Health Insurance - This is a projected number since we are still unsure what the impact of health insurance costs will be due to the Affordable Health Care Act for part time employees. The effective date of the Act is January 1, 2014. The impact of the Act is still being calculated - $\$ 230,600$.
5. Shift the Remaining $\mathbf{4 . 0 \%}$ of Employee Share for VRS Covered Positions for Employee Contributions - The General Assembly action requires employees to begin to pay the $5.0 \%$ contribution to VRS that had been previously paid by the State and employer. In FY 2012-2013 1.0\% of the $5.0 \%$ total was shifted to employees. In order to avoid multiple systems of salary scales and to adjust for this requirement so future salary scales can be corrected, the budget proposes shifting the remaining 4.0\% to employees and adjusts salary scales for this shift. This shift will also increase the employer's cost of benefits in the amount of - \$552,968.
6. Salary Increase of $\mathbf{2 . 0 \%}$ for all Employees - The Governor's proposed budget includes an increase of $2.0 \%$ for instructional positions only and this covers only about $47 \%$ of all school employees. The budget includes the cost to provide this increase to all employees - \$1,625,000.
7. Restore Two Maintenance Positions - Previous budget reduced the funding for two maintenance positions. Opening the two new larger high schools requires the additional skilled staff to maintain and provide custodial support for these buildings at a cost of - \$97,898.
8. Provide Funds for Pay-to-Play from the FY 2012-13 Budget - The approved budget for FY 2012-13 included a provision for participants in athletic competition teams to pay a fee to support the cost associated with the sport. This was later revised by the School Board and not implemented and the reduction recognized in the budget must be restored at a cost of - \$72,100.
9. Restore a portion of the staffing for In-School Suspension (ISS) programs - The previous budget reduced the In-School Suspension program. The increase in funds will provide additional staff to support ISS programs at a cost of $\$ 16,000$.
10. Partial restoration of athletic directors - The previous budget eliminated athletic directors. The addition of funds will provide for a full-time athletic director at BHS \& CHS and a part-time athletic director at AHS \& EMH at a cost of $\$ 181,320$.
11. Add two math coaches - The addition of two math coaching teaching positions since proficiency in math and higher level math courses continues to be a challenge at a cost of $\$ 120,880$.
12. Restore a portion of prior textbook funds - Restore a portion of prior textbook funds to provide supplemental math and literacy materials at a cost of \$63,665.

## Budget Reductions:

13. Leadership staff change - A change in central office staffing for a savings of $(\$ 53,000)$.
14. Summer academy change - Reduce budget for summer academy to reflect savings realized through changes and efficiency for reduction of $(\$ 25,000)$.
15. Modify Middle School class schedule - Reduce 15 full-time equivalent (FTE's) by a combination of reducing district staff, schedule changes, and modifying middle school schedule for reduction of $(\$ 906,600)$.

The total net increase in expenditures is $\mathbf{\$ 2 , 7 1 9 , 0 0 6}$ or an increase of $\mathbf{2 . 9 6 \%}$. The following lists changes by the major functional areas of Instruction; Administration, Health \& Attendance; Transportation; Operations \& Maintenance; and Non-Instruction.

## REVENUE SUMMARY

STATE - The Governor’s introduced budget for fiscal year 2013-2014 included changes for adjustments in enrollment, adjustments for sales tax revenue, changes in estimates for lottery proceeds, proposed salary increase of $2.0 \%$ for SOQ instructional positions only, and other adjustments to incentive accounts. The overall proposed budget was an increase of $\$ 615,891$ in State revenue or an increase of $1.31 \%$. Major impacts of the Governor's proposed budget include:

1. A proposed salary increase of $2.0 \%$ for SOQ instructional positions only for an increase of $\$ 490,877$. This increase only included $47 \%$ of all school system employees.
2. Technical changes and adjustments to basic aid for an increase of $\$ 441,549$.
3. An increase in lottery proceeds was projected but the budget used the increased amount to fund existing line items that were funded by the State General Funds and thus did not provide a significant increase.
4. The net impact of the Governor's Proposed Budget was a modest increase of $\$ 615,891$.

The General Assembly revised the Governor's proposed budget and the approved General Assembly budget reflects an increase of $\$ 700,159$. The major change is:

1. A salary increase of $2.0 \%$ for funded SOQ instructional positions and support positions only for an increase of $\$ 586,474$. This increase only includes $47.7 \%$ of all school system employees.

FEDERAL - Grants under No Child Left Behind for Title I, Title II A for Improving Teacher Quality, and for Title VI Special Education grant have been decreased due to sequestration, while other grants have also decreased. A major change to Federal funds is the realignment of the Adult Education grant to New River Community College and the loss of the funds for this grant. Federal funds must be used in accordance with the approved program and funds are received as a reimbursement for actual expenditures. This estimate is based on Federal projects approved for FY 2012-2013. The final approval for Federal grants for FY 2013-2014 will not be received until after the start of the fiscal year. Any additional revenue will be requested as a supplemental appropriation to the FY 2013-2014 budget when additional information is received. Federal funds are projected to decrease by $\$ 319,142$. Of major concern for future Federal grants is still the impact of action by Congress to address the sequestration of the Federal budget.

COUNTY - The School Board requested from the Board of Supervisors a budget allocation increase of $\$ 2,337,990$ or $5.88 \%$ from the FY 2012-13 budget allocation of $\$ 39,742,389$. This request was based on the needs of the school division to meet the increase in expenditures to maintain the current quality school system and make up for the loss of State revenue in past several years. The main source of County funding for schools is from real property taxes and the real estate tax rate was increased in FY 2012-2013 by 12 cent from 75 cents to 87 cents per $\$ 100$ dollars of assessed value. For FY 2013-2014 the real property tax rate increased from 87 cents to 89 cents per $\$ 100$ dollars of assessed value. In addition, the tax rate for personal property increased from $\$ 2.45$ to $\$ 2.55$ per $\$ 100$ dollars of assessed value for FY 2013-2014. This allowed the County to increase funding by $\$ 2,337,990$ or $5.88 \%$.

LOCAL - The total local revenue is projected to remain at the same level. The various miscellaneous receipts for rents, tuition, fees, and etc. are projected as per the following page for local revenue.

## CURRENT BUDGET

The budget for fiscal year 2013-2014 includes funds to provide a 2 percent increase in employee salaries. Due to the economic downturn and reduction in revenue, resources are not available to provide a cost of living increase to employee salaries. Although the School Board objective remains to compensate employees with a competitive salary and to maintain salaries that enhance the ability to attract and retain highly qualified employees, this will continue the challenge to provide competitive employee compensation. The following charts provide information on how our salaries rank in comparison to surrounding school divisions and in comparison to a statewide comparison band.

## HISTORY/BACKGROUND

During the budget preparation for the fiscal year 2001-02 budget, a plan was developed to improve the competitive ranking of employee salaries in comparison to surrounding school systems and to other comparable statewide school systems. Based on the identified target salary ranges, a three-year plan was developed that considered the increases that would be required to achieve the targets. The budget for FY 2001-02 included a 4.5\% increase in compensation and resulted in some improvement in the target rankings. The budgets for FY 2002-03 and FY 2003-04 were only able to include funds for a step increase that was an average increase of 1.9\%. Review of the comparison data for FY 2003-2004 indicated that most of the target salaries for Montgomery County Public Schools had dropped or made no improvement in the comparison rankings. The budget for FY 04-05 included a new three-year plan to improve salaries so that average salaries would move closer to the State average. This plan, developed jointly by the Montgomery County Education Association (MCEA) and the administration, was based on targeting benchmark salaries that are based on the average benchmarks computed from the salary scales for all 132-school divisions. The plan included a three-year phase-in of the plan to move to the target salaries. The average benchmarks based on the FY 2003-04 salary scales were increased by a factor of $2 \%$ per year to create the target at the end of three years. The target was then used to establish the salary scales for each year of the plan.

The FY 04-05 budget included a $6.88 \%$ increase for compensation. The budget implemented the proposed teacher compensation improvement plan and increased other salary schedules by an average of $6.88 \%$. Adjustments were made to salary schedules and the percentage increase by employee varied based on where the employee was positioned on the salary schedule. In general, all employees received a step increase plus an adjustment to the salary schedule. Some employees at the top of or off the scale received only the adjustment to the scale and were not eligible for a step increase.

The Budget for FY 05-06 included an increase of 4.0\% in the budget for salaries. Adjustments were made to salary schedules and the percentage increase by employee varied based on where the employee was positioned on the salary schedule. In general, all employees received a step increase plus an adjustment to the salary schedule. Some employees at the top of or off the scale received only the adjustment to the scale and were not eligible for a step increase.

The FY 06-07 final budget included a 5.5\% increase in the budget for compensation (1.7\% step plus $3.8 \%$ cola adjustment to salary scales) at a total cost of $\$ 3,618,797$ ( $\$ 919,314$ step cost plus $\$ 2,699,483$ adjustment to salary scales). In general, all employees received a step increase plus an
adjustment to the salary schedule. Some employees at the top of or off the scale received only the adjustment to the scale and were not eligible for a step increase.

The budget approved by the School Board for FY 2007-08 included a $2.0 \%$ increase for compensation ( $1.6 \%$ step increase and a $0.4 \%$ COLA increase in salary scales) for a total cost of $\$ 1,416,453$. This increase was significantly less than total increase of $8.4 \%$ that was needed for implementation of the salary improvement plan adopted in FY 2004-05. The salary improvement plan was deferred to future budget years.

The budget for fiscal year 2008-2009 included an $8.6 \%$ increase in the budget for compensation. This percent increase was the amount needed to fully implement the salary improvement plan that was adopted in FY 04-05 and that had not been fully funded or implemented in prior years. The total budget increase was $\$ 6,061,831$ (1.6\% step @ \$1,081,121 plus 7.0\% COLA @ \$4,980,710). Adjustments were made to salary schedules and the percentage increase by employee varied based on where the employee was positioned on the salary schedule. In general, all employees received a step increase plus an adjustment to the salary schedule. Some employees at the top of or off the scale received only the adjustment to the scale and were not eligible for a step increase.

The budget for fiscal year 2009-2010 does not include any increase for employee compensation. Due to the economic downturn and reduction in revenue, resources are not available to increase employee salaries. The teacher salary scale added a zero step and all employees remained at the same salary level.

The budget for fiscal year 2010-2011 does not include any increase for employee compensation. Due to the economic downturn and reduction in revenue, resources are not available to increase employee salaries.

The budget for fiscal year 2011-2012 included a one percent raise based on the current salary scales with those at or beyond the top of the scales also included. This raise was an across the board increase in salaries of $1.0 \%$ at a total cost of $\$ 847,410$.

The budget for fiscal year 2012-2013 included funds to provide a one percent increase in the salary scales for employees participating in the Virginia Retirement System (VRS). This one percent increase was to off-set the one percent VRS contribution the employee began paying July 1, 2012. Due to the economic downturn, additional resources were not available to provide any raise or a cost of living increase to employee salaries. Although the School Board objective remained to compensate employees with a competitive salary and to maintain salaries that enhance the ability to attract and retain highly qualified employees, it will continue to be a challenge to provide competitive employee compensation.

The budget for fiscal year 2013-2014 includes funds to provide a four percent increase in the salary scales for employees participating in the Virginia Retirement System (VRS). This four percent increase is to off-set the additional four percent VRS contribution the employee will begin paying July 1, 2013 (for a total of five percent). In addition, the proposed budget includes a two percent raise based on the current salary scales with those at or beyond the top of the scales also included. This raise would be an across the board increase in salaries of $2 \%$ at a total cost of $\$ 1,625,000$.

[^1]Student enrollment is expected to increase slightly as projected by the DeJong and Associates study and staff projections based on current enrollment. The following chart illustrates the recent past years and projected average daily membership. ADM numbers are projected as of March 31 for each year. The membership used for budget planning for FY 2012-13 was based on 9,502 students. ADM for FY $2013-14$ is projected to be 9,552 students and is 50 more than the current budget level of 9,502 . This reflects that the current growth will continue to be moderate with additional increase in future years. State revenue is projected based on the projected March 31, 2014 ADM enrollment of 9,552.

The proposed renewal rates for FY 2013-2014 for the plan year that begins October 1, 2013, project insurance premium rates to stay the same. The budget includes an estimated increase of $\$ 230,600$, for the unknown impact of the Affordable Health Care Act for part time employees. The proposed renewal includes the Keycare 15 and HMO 15 and is modified for minor adjustments to comply with legislative changes. The two plans available for employees (Keycare 15 and HMO 15) will continued to be paid by the School Board for the full single premium rate. Fully insured plans will continue to be provided from Anthem.

The attached chart reflects the last five years of health insurance premiums and the single premium rates.

## HEALTH INSURANCE COST OPERATING BUDGET

| YEAR | PPO | HMO |
| :---: | :--- | ---: |
| 2010 | $7,144.50$ | $\mathbf{6 , 5 7 3 . 1 0}$ |
| 2011 | $7,192.30$ | $\mathbf{6 , 6 4 9 . 8 0}$ |
| 2012 | $7,588.80$ | $7,007.90$ |
| 2013 | $7,682.40$ | $7,221.50$ |
| 2014 | $7,682.40$ | $7,221.50$ |

NOTE: Based on School Board's cost for 100\% of single premium rate. Anthem Blue Cross and Blue Shield rates for policy year beginning Oct. 1, 2013.

## SCHOOL OPERATING BUDGET FTE SUMMARY

FY 2013-14

The following page includes the staffing for FY 2012-2013 and the reduction in staffing for FY 2013-2014. The data is presented for approved positions based on a full-time equivalent (FTE) for each category. This includes adjustments that have been approved by the School Board for staffing during FY 2012-2013 school year. The approved budget includes a net decrease of 7.00 FTE.

POSITION SUMMARY

| Description | FY 2012-13 | FY 2013-14 | INC/(DEC) |
| :--- | :---: | :---: | :---: |
| Elementary Teachers | 272.02 | 272.02 | 0.00 |

## Overview

The Virginia Department of Education reviews available texts and integral instructional materials every six years in each academic subject area. Recent modifications to the DOE review schedule were made to mirror revisions of the Virginia Standards of Learning. The Virginia DOE negotiates a state contract with the publishers who are placed on the state adoption list for all texts and materials associated with the adoption. The prices established with the publishers determine the costs of texts and materials to local divisions. Average costs of textbooks range from approximately $\$ 30.00$ at first grade to $\$ 65.00$ at middle school and $\$ 90.00$ at high school. Teacher resource packages, essential to the appropriate use of textbooks and accompanying resources, generally are provided free of charge at the level of one resource package per 25 or 30 students. Because MCPS class sizes are lower than the established "no charge" ratio, MCPS has to purchase additional teacher resource packages at an average cost of $\$ 400.00$ per package. Teacher resource packages generally include software for lesson planning, transparencies or software for visual instructional aids, and student assessments. At the elementary level, teacher resource packages may also include re-teaching software and content libraries for the classroom.

The following is the current schedule for academic textbook/instructional materials, with the resulting revised MCPS adoption and purchase schedule. Note that MCPS has followed, for many years, a phased-in approach to the review and purchase of certain texts in order to maintain a somewhat balanced expenditure of funds across fiscal years. Other modifications to the schedule may occur as the DOE makes revisions to regulations or curriculum or as teachers indicate that a delay or acceleration of an adoption is needed.

## Textbook Adoption Calendar

The calendar below reflects the year during which the content supervisors lead a review of Core Textbooks/Resources and present a list of texts/resources to the MCPS School Board for adoption. The purchase of adopted texts is dependent on funding and may be budgeted over several years. Implementation follows purchasing and may be phased in based on purchasing.

## School Profiles

Profiles are provided for the 11 Elementary Schools, 4 Middle Schools, and 4 High Schools. Student enrollment numbers are projected data moving the current grade levels forward and projecting kindergarten enrollment. Staffing numbers are based on the current level of staffing. Pupil teacher ratios are computed based on the projected enrollment and current staffing.

Expenditure data lists the current budget for classroom instruction, media/library support, and office of the principal accounts. Projected budget is the current budget plus expenditure adjustments in the base budget. For individual school profiles, salary and benefits are not listed by school and only reflected on the summary pages.

## Department Profiles

Profiles are provided for departments and major program areas. These profiles list the current staffing by title or function. Expenditure data reflect the current budget to include the budget for salaries and benefits. The projected budget is the current budget plus expenditure adjustments in the proposed budget. Some positions may appear in more than one profile based on listing positions by the department providing supervision versus listing by the program function. For example, Career and Technical Education teachers are listed under each school's profile and also under the program profile for Career and Technical Education.
